Dear Galen,

We are pleased to announce that you have received the endorsement of the NARAL Pro-Choice Montana PAC in your race. Your strong support for reproductive choice and 100% voting record make it a great pleasure to support your campaign.

Montana women and their families need you to fight to protect their reproductive health choices from those who would have politicians, not women, deciding when and whether to have children.

A victory in 2008 is a victory for science over ideology, a victory against those who say they support "family values" and for those who work to empower women to bring children into the world under circumstances of their own choosing. This victory ensures that women are equal, contributing partners in society.

We have a lot of work to do, but together we can change Montana's political landscape and create communities where every pregnancy is wanted, every child welcomed and every woman respected.

We wish you the very best in your campaign. Feel free to call us at 406-449-8193 if we can be of further assistance to you.

Sincerely,

Allyson Hagen
